

Dear Physician:

For prosthetic liners to be covered by Medicare, all applicable Medicare statutory and regulatory requirements must be met. Medicare requires a physical evaluation of the patient, and the following bullet points must be included in the physician's chart note (Medicare does not consider a letter part of the medical record). Please fax any Medicare compliant chart notes to our office.

The physician must document the following:

1. This patient continues to use their prosthesis

Thank you, and please let us know if you have any questions or concerns.
