

Dear Physician:

For a Revo System addition to be covered by Medicare, all applicable Medicare statutory and regulatory requirements must be met. Medicare requires a physical evaluation of the patient, and the following bullet point must be included in the physician's chart note (Medicare does not consider a letter part of the medical record). Please fax any Medicare compliant chart notes to our office.

A Revo System is medically necessary to prevent skin breakdown by allowing micro adjustments to the fit of the device throughout the day as the patient's limb volume fluctuates.

The physician must document the following:

1. Why the Revo System addition is medically necessary.

Thank you, and please let me know if you have any questions or concerns.

Revised 6.13.16
